

Employee of the Month, May 2015
Sherry Bullock - Programmer III
Information Systems

We would like to nominate Sherry Bullock for May 2015 Employee of the Month. Sherry was first employed by the Assessor's office in April 1978. We were lucky to add her to our staff in 1984 as a Computer Programmer. She brought experience from the Assessor's office and applied it in developing land applications.

Over the years she has been teased and referred to as and referred to herself as: a little bit OCD in her design and the "queen mother of all".

She is really described as detail oriented, well liked, willing to work extra when needed, a good resource to other programmers and always willing to take on extra work.

As a Programmer, Sherry's responsibilities have covered a wide range such as Time Entry, Board of Equalization, Personal Property, Marriage Licenses, Motor Vehicle, Commercial Reappraisal, Personnel Actions and Tax Abatement's. Any new applications or modifications made are done in a complete manner and thoroughly tested prior to being released. Sometimes it seems like she is sitting in chair that is constantly rotating due to switching from one application to another at any given time. She has managed to come out of this spinning and without getting dizzy.

When applications, such as Board Of Equalization, need support during the evenings, Sherry does so without hesitations. This support may be just "being available", not that there are any concerns. If deadlines are approaching, extra hours are worked without complaint and with the knowledge that there will be no compensation for these hours.

Professionalism is continually displayed when working with director, manager and county employees.

Sherry is an asset to Utah County and is well-deserving of this nomination.

Nominated by Neil Peterson, Paulette Patten, Jay Sundberg, Dean Richins, and Larry Howard
