

Storm Water Coalition Minutes
March 31, 2011

1. Welcome and Roll
2. Coalition members are asked to contact the Public Works office to update the Emergency Contact Information for flooding for each City.
3. A demonstration will be scheduled to train Coalition members on the State Storm Water online webpage at the next Storm Water meeting.
4. Storm Water Instructor update

A number of schools have been visited with the Storm Water presentation. Shipment of droplets have been delivered to a number of schools that did not receive them due to a delay of the original order.
5. Sub-committees Updates
 - A. Inspection Committee - Ryan Johnson-Orem, Juan Garrido-Springville, Don Overson-Vineyard, Mark Atwood-Pleasant Grove, Scott Allen-Provo, Jeff Maag-Cedar Hills. The intent of the Inspection Committee meeting was to determine a collective terminology for municipalities to use on the land disturbance form. It was agreed that inspection form terminology is standard to all and no further changes will be required at this time.
 - B. Education committee - Steve Johnson-Orem, Glen Tanner-Utah County, Paul Miller-Lindon.
 - C. Discharge Committee - Nestro Gallo-American Fork, Stan Orme-Orem, Rustin Porter-Springville, Don Renyolds-ACCENAGroup.
 - D. Post Construction Committee - Trapper Burdick-Spanish Fork, Rick Sabey-Orem, Curtis Chatwin-Lehi, Juan Garrido-Springville.
6. State Storm Water program updates
 - A. Juan Garrido-Springville reported the State Storm Water webpage is up and running. It was recommended that all Coalition members go online to create their City account to log on and access the webpage. It was also recommended that they call the State office to activate their new account. They will have access to NOI information for their areas and be able to view all requests for permits.
 - B. Utah County Storm Water Coalition representative voting members are Juan Garrido-Springville and Steve Johnson-Orem. Ryan Johnson-Orem was added as the newest voting member to represent the Coalition at State meetings for a replacement if Juan or Steve are unable to attend.
7. Mark Crane's, EnviroCare Inc, presentation helped coalition members to see the importance of using caution and prevention regarding waste management procedures. He explained how they are working with cities as a full-service hazardous materials company. EnviroCare Inc. is working to train many companies and municipalities on preventive measures. Their company assists with training in areas of site remediation, transportation, ,cathodic protection, emergency response services, environmental services and waste management. Further information regarding their company can be found at www.envirocarehazmat.com.

8. Ryan Dickson from ACCENA Group gave some demonstrations on how to use a web-based compliance system called ComplianceGo. He passed out a user guide. Once logged on to the program, a user will have password protection to their information. The system will automatically send email notifications regarding such things as inspections. It will notify customers of scheduled inspections and reports that are required by each City. The program has administrative and customer access. With user friendly tabs for reports, mapping logging, and organizing documents, permit information can be stored conveniently. Contact ComplianceGO support 801-701-6188 or support@compliancego.com. The Coalition will use this online program on a trial bases. No need for extra funds from Coalition members to use the ComplianceGo program since surplus funds will be used to start the program.
6. Other Business
Coalition members were reminded to pick up their orders of sand bags before they left.

The next scheduled meeting will be on Thursday, May 26, 2011 at 10A.M. This date may change to the first week in April. An email will be sent to the Coalition members with the actual date.

Meeting Adjourned
