SECTION 1 - PURPOSE OF RFP

1.01 Purpose of RFP

The purpose of this RFP is to solicit proposals from potential Community Agencies with the intent to enter into a contract with Utah County Government for **ONE TIME grant funds**. These funds are to be exclusively used for projects for vulnerable and/or low-income youth of Utah County, and for those who were disproportionately impacted by the effects of the COVID-19 pandemic, with the goal to develop or expand capital infrastructure that provides programs that have been shown to improve mental health through intervention.

ALL FUNDING MUST STAY IN UTAH COUNTY and be for the benefit of Utah County citizens. Organizations who have administrative or corporate offices outside of Utah County must have existing capital infrastructure that directly serves Utah County citizens inside of Utah County. Funding **MAY NOT** be collected by any organization and spent for the benefit of organizations or individuals outside Utah County. Awards may not be co-mingled with other funds or put into any organization's 'General Fund' or shared with any organization outside the county, including parent, sister or otherwise partnered organizations, of the Community Agency. Any one-time funding must be invested into an enterprise that will not require further public funding or subsidies and is an on-going concern with a viable business plan.

Under 602(c)(3) of the Social Security Act Utah County may transfer ARPA / SLFRF funds to a private non-profit organization that will be considered a subrecipient. Subrecipients will be required to comply with terms of SLFRF, including all reporting requirements.

1.02 Background

Utah County leadership has a long history of diligent fiscal responsibility, which prioritizes small government, careful spending of tax-payer dollars and a long-range outlook to maximize outcomes and leverage resources to the greatest advantage.

In 2021, Utah County Government was given federal funds for COVID-19 recovery through the Coronavirus State and Local Fiscal Recovery Funds (SLFRF) program, part of the American Rescue Plan Act (ARPA). On an on-going basis, Utah County has sought to leverage these federal tax-payer funds carefully by partnering with local governments and agencies, community organizations, and non-profit entities (primarily 501c3) to fund needed projects in our community. To date, these funds have been used for COVID-19 relief and vaccination clinics, valuable water project infrastructure, urgent funding of food programs to meet increased COVID-19 demand, county emergency preparedness, medical and housing needs, and much needed public service upgrades.

As part of its Coronavirus relief plan, Utah County has set aside more than \$13 million of ARPA funds for Community Grants. These funds will be divided between a variety of wide-ranging projects. The average award has not been determined, nor has the division of these funds between types of projects. It is expected that no single award will exceed \$5 million, with the average award being considerably lower. Need and value to the

community will be the ultimate drivers for award determination.

Currently, Utah County leadership recognizes the need to grow, develop, and expand youth programs to benefit our most vulnerable citizens, particularly in the arena of interventions that have demonstrated improvement to mental health and long term stability. Our focus is on funding capital projects that provide space for recreational and educational opportunities that meet these mental health and stabilizing objectives. Utah County leadership seeks to provide **ONE-TIME FUNDING** to the most impactful projects with the greatest long-term benefit, while still functioning within the scope and limitations of the federal grant. **ARPA has at its core, a focus on impactful spending for vulnerable and disadvantaged communities. All respondents should consider and include details about how their project serves this goal.**

1.03 Who Can Apply

- 1) Any legal nonprofit organization within Utah County which has existing infrastructure used to provide youth programs. New non-profits may apply, so long as they meet all of the other criteria outlined in this RFP.
- 2) The non-profit should desire to expand or improve program services for low income/disadvantaged youth, and use grant funds for additional, expanded, or improved capital infrastructure.
- 3) These programs could include supplemental after-school or summer-based educational and recreational programs that need physical infrastructure. All programs should have a successful history with demonstrated intervention improvements to youth mental health. Projects should meet needs or demands beyond current capacities of existing public-funded based services in Utah County. Projects should focus on youth from disadvantaged groups such as (but not limited to) low-income groups, communities that have historic disadvantages such as black or Hispanic groups, or who have physical or mental disabilities that inhibit them from full and active participation in the wider community.

2.10 Highlights of Grant Constraints of ARPA

1. ARPA FUNDS may only be spent within the grant's limited 'Expenditure Categories' defined by the US Treasury's Final Rule and set forth in the 'Coronavirus State and Local Fiscal Recovery Funds – Compliance and Reporting Guidance.' Community Grants for youth service projects are funded under "Expenditure Category 2.25: Addressing Educational Disparities: Academic,

Social, and Emotional Services, Section 2.25 Addressing Educational Disparities: Mental Health Services” and “Section 1:10 Mental Health Services”

2. ARPA FUNDS must be FULLY obligated by December 31st, 2024 and fully spent by December 31st, 2026 as part of the federal grant conditions. UTAH COUNTY HAS A MORE STRINGANT TIMELINE which allows the County to reallocate unused funds. **UTAH COUNTY TIMELINE FOR THE OBLIGATION OF FUNDS is June 30, 2024.** Periodic project timelines will be requested and may determine whether fund awards will be clawed back if project timelines and deadlines are not met and will be at the discretion of Utah County. **Any obligated but unexpended funds that go beyond the expenditure deadline of Dec. 31, 2026 will not and cannot be covered by the award, neither will Utah County be under any obligation to fulfill those unobligated expenses or invoices from contractors or Community Agencies.**
3. Utah County will make all awards based on a thorough risk assessment. This includes the following taken from federal guidance in 2 CFR 200:
 - (i) *Financial stability.* Financial stability
 - (ii) *Management systems and standards.* Quality of management systems and ability to meet the management standards prescribed
 - (iii) *History of performance.* The applicant's record in managing Federal awards, if it is a prior recipient of Federal awards, including timeliness of compliance with applicable reporting requirements, conformance to the terms and conditions of previous Federal awards, and if applicable, the extent to which any previously awarded amounts will be expended prior to future awards
 - (iv) *Audit reports and findings.* Reports and findings from audits performed under [subpart F of this part](#) or the reports and findings of any other available audits. For more information about federal auditing go to: <https://www.ecfr.gov/current/title-2/subtitle-A/chapter-II/part-200/subpart-F>
 - (v) *Ability to effectively implement requirements.* The applicant's ability to effectively implement statutory, regulatory, or other requirements imposed on non-Federal entities.
4. For the purposes of this Grant, Utah County discourages the use of funds for purchase of large equipment over \$5,000 which has a useful life over 12 months. Large equipment requires on-going monitoring beyond the contract period, and is therefore discouraged. If the Community Agency plans to purchase large equipment, it must be clearly outlined in the proposal.

Utah County Policy States:

1. “Utah County and its subrecipients shall follow federal regulations found in part 200.310 thru 200.316, which refers to capitalization of individual items purchased that exceeds \$5,000 and has a shelf life of more than 12 months. Items purchased with federal dollars and exceeding this limit must be individually identifiable in the fixed asset system.

2. For awards with subrecipients, the Grants Office, and department managers will ensure the following procedures for managing equipment (including replacement equipment), whether acquired in whole or in part with award funds, until disposition takes place will, at a minimum, meet the following requirements:
 1. Property records must be maintained by the subrecipient that include a description of the property, a serial number or other identification number, the source of property, who holds title, the acquisition date, and cost of the property, percentage of Federal participation in the cost of the property, the location, use and condition of the property, and any ultimate disposition data including the date of disposal and sale price of the property.
 2. A physical inventory of the property that may be observed by the Utah County Grants Office and department managers in order to reconcile with the property, equipment, and inventory records.
 3. A control system must be developed by the subrecipient to ensure adequate safeguards to prevent loss, damage, or theft of the property. Any loss, damage, or theft shall be reported to the County Auditor and investigated.
 4. Adequate maintenance procedures must be written by the subrecipient and developed to keep the property in good condition.
 5. If the subrecipient is authorized or required to sell the property, proper sales procedures must be established to ensure the highest possible return
3. Disposal of capitalized assets must follow the County's purchasing policy and should be disposed of in a manner that is in the best interest of the County. Whenever excess property is to be sold at auction, all sales shall be to the highest bidder. Subrecipients should follow their own asset disposal guidelines if they are stricter than the County. Otherwise, they must also follow County disposal guidelines.
4. The grantor should be contacted to obtain in writing, the preferred disposal methods of surplus assets or equipment. Unless expressed, The Uniform Guidance provides requirements around disposal of fixed assets purchased with federal dollars. When original or replacement equipment acquired under an award or sub-award is no longer needed for the original project or program or for other activities currently or previously supported by a federal agency, disposition of the equipment will be made as follows:
 1. Items of equipment with a current per-unit fair market value of less than \$5,000 may be retained, sold or otherwise disposed of with no further obligation to the County or its subrecipients.
 2. Items of equipment with a current per unit fair market value in excess of \$5,000 may be retained or sold and Utah County or its subrecipients shall have a right to an amount calculated by multiplying the current market value or proceeds from sale by the County's percentage of participation in the cost of the original purchase. If the equipment is sold, the Federal awarding agency may permit the County or its Subrecipients to deduct and retain from the Federal share \$500 or ten percent of the proceeds, whichever is less, for its selling and handling expenses."

2.11 Award of Contracts

Awards will be determined by the Utah County Commission, and are expected to be completed by August 1st. Utah County will not be considered a partner or an investor of any entity that receives awards. Any awards to entities should be considered a ONE-TIME grant funds. No further funding is available.

2.12 Contract Period and Effective Date

The date and period will be determined for each project separately. All projects will be subject to the time and claw back restraints outlined in this RFP.

2.13 Costs and Fees

The responding party agrees that Utah County may terminate this procurement procedure at any time, and Utah County shall have no liability or responsibility to the responding party for any costs or expenses incurred in connection with this RFP, or such party's response.

2.14 General Requirements

Exceptions or deviations from Utah County's standard terms will be taken into consideration when evaluating proposals submitted and may result in the Proposal being rejected in whole or part by Utah County. Utah County specifically reserves the right to reject any or all of the proposed modifications. Utah County will be legally bound only when and if there is a definitive signed agreement with the awarded Service Provider ("Contractor"). It is vitally important that any person who signs a Proposal or agreement on behalf of a Contractor's firm certifies that he or she has the authority to so act. As one example, some funding sources prevent layering funds, this is especially true with federal funding sources.
